ICDL Advanced – the certificate for Office experts

With the standard features you know from the ICDL Core, certain tasks can only be accomplished with difficulty or not at all. With the skills acquired based on the ICDL Advanced 2.0, you can solve these tasks elegantly and easily.

The ICDL Advanced Syllabus 2.0 you are holding in your hands now, contains the test contents of the following four Office modules: word processing, spreadsheets, database and presentation. It details the knowledge required to pass an ICDL Advanced exam. This list also serves as a checklist to assess, which skills you still need to acquire.

In contrast to the ICDL Core, candidates receive an ICDL Advanced certificate for every module test passed. By attaining all four Advanced certificates you prove that you are an office expert and also receive the ICDL Expert certificate.

Many ICDL test centres offer computer courses for the ICDL Advanced to acquaint you with these programmes. At the same ICDL Advanced Test centres in Switzerland and the Principality of Liechtenstein you can take the ICDL Advanced tests irrespective of whether you took a course there or not.

You can find further information on the ICDL Advanced, as well as an overview of all ICDL test centres at www.ecdl.ch
